INTERNATIONAL SOCIETY FOR MUSHROOM SCIENCE

**DIRECTORY  
OF  
SUPPLIERS WORLDWIDE  
THEIR PRODUCTS  
AND SERVICES**

**(2001)**

## ISMS Directory of Suppliers - 2001

To our knowledge, this is the first published world-wide directory of suppliers for the mushroom industry and we hope that this publication this will be of benefit to **ISMS** members. To make this directory, we used the names and addresses of companies advertised or listed in the mushroom industry trade journals that are regularly sent to us. Also we made three consecutive requests in *Mushroom International* (The Newsletter of the International Society for Mushroom Science) for companies to include their addresses in this directory. This list therefore depends on the response we have received, and if a company is not listed, it is because it has not contacted us. It is our hope to produce a *Directory of Suppliers*, every two years.

**If your company is not in this Directory, please contact us in time for the next issue.**

The International Society for Mushroom Science (**ISMS**) seeks to further the cultivation of edible and medicinal macrofungi. It is a non-political and non-profit making organisation. The objectives of **ISMS** are the dissemination of information on new developments and the science of mushrooms and to stimulate exchange of new ideas between growers and scientists around the world. **ISMS** publishes '**Mushrooms International**' four times a year and its aims are to include news and views from around the world (concerning mushroom biology, business, trade and growing practices), a list of forthcoming events and a bibliography of publications relating to all aspects of mushrooms.

**ISMS** has an open membership policy. Anyone wishing to join should send a cheque of £30 (pounds sterling), €55 (euros) or \$55 (US dollars) to Dr Kerry Burton, **ISMS**, 196 Rugby Road, Milverton, Leamington Spa, Warwickshire, United Kingdom, CV32 6DU
